We are ready to service your public!

Narconon Suncoast has graduated students on the full Narconon Program for the last 5 weeks in a row and upon a recent review of our graduates, they are doing GREAT!

The work done at Narconon Centers on a daily basis is so rewarding especially when you see the lasting effects of that one drug-free individual and the ripple effect that he creates on others.

Saving lives, reuniting families and rebuilding communities is what it's all about and what we, at Suncoast, are proud to do on a daily basis.

Here is a success story from a graduate:

"I feel really good right now like nothing can get me down. There are so many things better than this needle "dope". I know that I am many things – son, friend, father, citizen, good person, but definitely not a junkie. My life can only get better from here if I make good choices. I know that I am better than that needle and I am definitely the boss.

I came here with the intention of getting off of heroin. What I got was a chance for a new life, to be able to be happy again and be confident and strong and not doubt myself. Everything that I have learned since I have been here will be used now in my New Life. I do not feel like the person I was when I got here. I actually believe in myself and know that I am going to make an impact on everything I do, and have the knowledge to lead an ethical, productive, and happy life."

And here is a letter from his mother that we received after he returned home, got a job, remained drug free and continues to do well:

"Dear all staff at SRC:

I want to sincerely thank you for all the hard work you do at Suncoast. When I saw my son at the airport he was happy, smiling and healthy. You cannot take the smile off his face if you tried. As his mother and having gone through what I have with him over the past 10 years, I kept waiting for the ball to drop so to speak. That is what I was used to. But I watched him handle lost luggage maturely and calmly, something that would never have happened in the

past. He is able to identify personality traits in others so as not to be drawn into their bad habits. He is presently working with my neighbor but he knows that there is a lot of work to do to rebuild his life to what he wants it to be. I will be here to support him as I always have.

He knows that everyone at Suncoast wishes him the best. Thank you for your continued support. He talks about those who have kept in touch to see how he was doing and that has meant the world to him. He has made a lot of new friends through you.

So I just wanted you to know you have touched my heart deeply with what you have done. To help transform my son's life from the prison he was in into what it is today.

Forever Grateful ~"

Narconon Suncoast has a new website!

Check it out at :

www.suncoastrehabcenter.com

We are also now accepting insurance.
